

WOMEN VETERANS: GET SCREENED FOR COLON CANCER

Donna

Just got out of my VA colonoscopy... got a good report. All clear! 💩

Ahhh! I need to get mine now that I'm 45, but I'm nervous.

Donna

My VA provider helped me feel very safe and at ease. Glad I didn't wait. Screening is so important.

Joan

Agree. Get screened! My provider told me 90% of colon cancers are preventable through routine screenings and a healthy lifestyle.

Really? I had no idea. I'm just not sure about the procedure. Wish there was another way...

Joan

VA sent me a screening test I could do at home. So convenient! Ask your provider about your options.

Good to know 🙌 Love that VA offers options to help us feel comfortable. 😊
