On-line Appendix A: Mapping of ICD-9-CM Codes to Conditions and Domains

Note: The table below demonstrates how each ICD-9-CM code maps to a Sourcebook Volume 3 "Condition" and to a Sourcebook Volume 3 "Primary Domain." If the ICD-9-CM additionally maps to a Sourcebook Volume 3 "Secondary Domain," then that mapping is also specified. Please see Sourcebook Volume 3 for details of the mapping process.

Also note that the first three digits of an ICD-9-CM code herein refer to the numbers to the left of the decimal point; the following two digits, if any, refer to the numbers to the right of the decimal point. A similar approach applies to V codes.
